You will be asked to provide contact information, a brief description of the problem you are experiencing, and any other information. documentation, screen shots, or information that may help resolve the problem.

HOW THE INFORMATION COLLECTED IS USED

How we use the information we collect depends in part on the services you use, how you use them, and any data you have told us. Below are the specific purposes for which we use the information we collect about you.

We collect and process information about you only if we have a legal basis to do so in accordance with applicable Russian law. The legal basis depends on the Services you use and how you use them. This means that we only collect and use your information where: we need it to provide services to you, including to improve the accuracy of glycemia prediction, to provide customer support and personalized features, and to protect the safety and security of the Services;

This satisfies the law (and at the same time does not conflict with your data protection interests), for example for research and development and to protect our legal rights and interests;

If you have consented to us using information about you for a specific purpose, you have the right to change your mind at any time, but this will not affect processing already carried out.

HOW WE SHARE INFORMATION

Health information may be shared anonymously and used for research and statistical analysis.

This means that all personally identifiable information will NOT be shared, including but not limited to any notes, comments, and all text information entered by the user.
